S E M I N A R:
Residency in Serbia as a Comparative Advantage in Investment Arbitrations

Goal:

Overview of the:

- advantages of companies from Serbia in legal protection before investment arbitrations compared to companies from EU countries, how and why investors from Serbia are better protected in those proceedings compared to investors from the EU.
- possibility of Serbia becoming a center for structuring EU investments so that EU investors would structure their investments through Serbia, thereby gaining the right to enjoy legal protection through bilateral investment agreements concluded by the Republic of Serbia, which would, among other things, increase investments in Serbia.
